DETAILED ACTION

In light of the discovery of new prior art the following action is made. It is regretted that such art was not earlier discovered.

1. The reissue oath/declaration filed with this application is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following:

Applicant is identified in the declaration as a joint inventor. Therefore, the declaration lacks the signature(s) of the other inventor(s).

2. Claims 1-31 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.

3. Applicant has failed to incorporate the changes made by Certificate of Correction (see MPEP 1411.01).

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 27-31 are rejected under 35 U.S.C. 103(a) as being unpatentable over Henschel. Henschel shows a garment or cap having invisible or transparent pockets P of sheer material 13 for suspending embellishments such as objects 15 comprising for instance toys or pictures

(baseball cards). The use of fabric for the portions 7 of cap is old and well known and thus would have been obvious to one of ordinary skill in the art at the time of the invention.
